**We would like to request your informed consent for sending you mobile phone SMS messages via our new HotDoc system here at the practice. We will also be sending out a SMS broadcast in the near future where you can opt in or out of receiving future SMS reminders.*

Q. What is HotDoc?

HotDoc is a free service that helps patient's book online medical appointments. No more waiting on hold to book an appointment. The doctor's schedule is now at your fingertips. It also allows for us to contact you via mobile phone SMS for appointment reminders, recalls, and medical services we offer. You can get to HotDoc either by visiting their website <https://www.hotdoc.com.au/> or by downloading the HotDoc app onto your mobile phone (preferred method).

Q. What will your practice message me about?

First, if you have an upcoming appointment, we will send you a reminder message. Second, if you are overdue or due for a health checkup (also known as a recall), you will get a reminder message explaining what it is about. Third, there may be instances where we send out a message regarding important medical service information, such as you are eligible for certain health checks or when flu vaccines are in, so that you can book in straight away.

Q. What is HotDoc Recalls?

HotDoc Recalls & Reminders is the efficient and user-friendly way to manage the practice recall and reminder process. HotDoc effectively communicates recalls and reminders to patients using secure mobile notifications instead of expensive and time-consuming patient mail outs. For more information, please visit www.hotdoc.com.au.
